The staff were very rude. I had a leak in my room the first night and their suggested solution was to "not put anyone in the room above me." And when I insisted on moving because I had items I did not want to get wet, they moved me to the ... [Read more](#)

I cancelled a shared room to get a private room in this hotel. I thought I would finally get some needed sleep but when I arrived in the room, the floors weren't the most hygienic and when I got between the sheets I started itching.

I only read the reviews after and confirmed there were claims for bed bugs. I had to book another hotel again. I didn't bother asking for a refund as the reviews said the management doesn't allow it.

I returned the keys and told the guy I was checking out. He just smiled and said 'Thank you' like it was a common thing and I guess, 'thanks for the free money.' Apparently, they have the discretion of not asking a review from you in booking.com. So I'm leaving my review here.

Hotel Tolbiac is good value compared to other hotels in the area. My room was tiny, however it was clean and bright. The people at the front desk were friendly and helpful.

Booked a place here but when we got to the room, immediately booked a new hotel. Looks like a drug den and looks extremely scary. The lock of our room was broken and opening the window was torture to our ears. Usually I disregard the reviews cause people are so critical but I should've listened. Stay away from here. It's price is not worth the place

A cheap hotel in an okay location. Recent paint makes the rooms look a little better than previous reviews. The hotel offers 24x7 reception service and they are very helpful. The staircase is narrow and spiral , just borderline enough to ... [Read more](#)

+ This hotel had bed bugs. In room 3. There is literally no doubt about it, they bit us and we're crawling around in the bed. The hotel refused to refund us, and the front desk staffed claimed ? didn't know the managers phone number? disgraceful & disgusting

- The bed in the room had bed bugs literally crawling around. My friend and I got bit. I assume the sheets hadn't been washed in days since there were so many. Absolutely disgusting. The staff refused to help or refund me. This place was unsafe and gross.

Absolutely terrible experience at this hotel. The service was abysmal, with staff showing no concern for guests' comfort. Insects were found in the beds , they refused to issue any refunds or offer compensation. Definitely the worst hotel stay I've had in France. Avoid at all costs.

+ I had kind a nice view from my window.

- Shared bathroom and TV is on the side of the bed and way to high up to the ceiling. Awkward position to be able to watch the TV.

Room Cleaning - 1/10 and that's it. ||Any good thing that a hotel can have, after this, it no longer has. So I should not even classify the rest. Photos do not match reality. Just don't go, although you want to wake up being bitten by "bed bugs"||Breakfast ok lol.

After I read all the recent reviews I decided not to sleep inside the quilt so it was fine. But a lot to travel up and down if you have luggage
